The GOAT Attachment is designed to be one of the most versatile rack attachments, replacing the need for multiple standalone machines. Bronze bearings allow smooth rotation, and the bracket's five pin holes let you pin the tube in at 11 different angles. The GOAT Attachment includes the bracket, a 24" tube with 1" holes, and two hitch pins. Attachments are sold separately. Both the 1" and 5/8" versions have identical frames, with the 5/8" model featuring a different threaded pin.
