Made In Usa	Yes

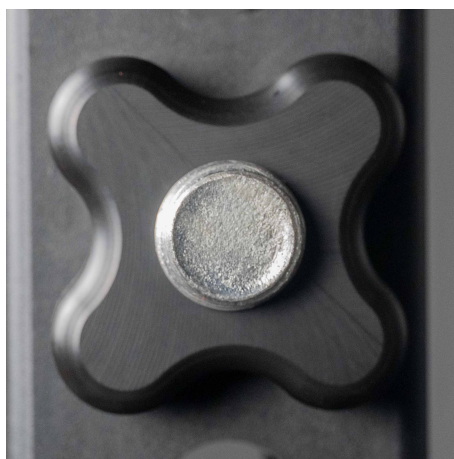

The Adjustable Nut goes on threaded 1" rods/bolts, they come with many of our products but can be added to any threaded 1" rod. Our Adjustable Nuts are machined out of a solid piece of Acetal plastic in Columbus Ohio, we chose Acetal plastic for its high tensile strength and low friction coefficient giving the nut high resistance to wear and abrasion protecting both the threads of the attachment and the upright.

FEATURES

Machined out of Solid Acetal Plastic

Snugly fits on rack post

Single solid piece will not break
