2325-LEFT

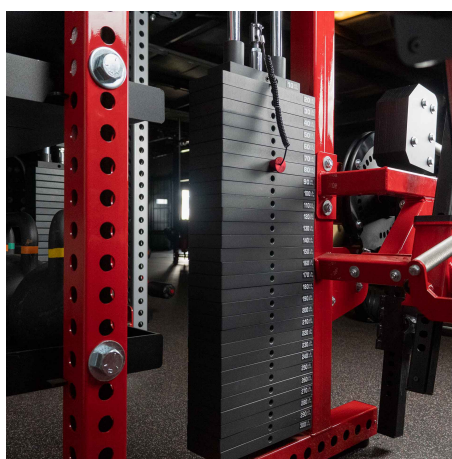

The Selectorized Seated Leg Curl/Extension features a 300 lbs stack, with a seat that can be oriented to either side. This design transforms the space between leg extensions into useful storage with added Flat or DB Trays. Crafted with 3x3" tubing and 1" holes, these units are standalone but can integrate seamlessly into an ATR System or sold in a Pre-Configured Leg Curl/Extension Unit. Laser Cut logos can be added under the seat.

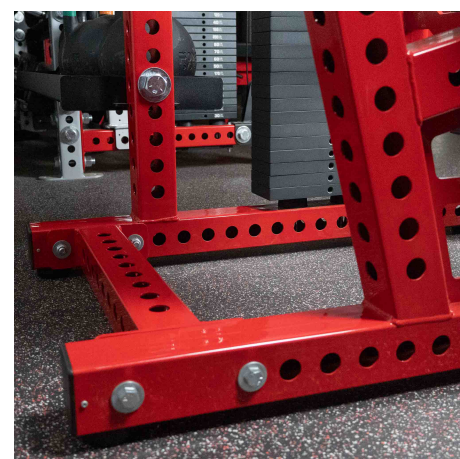

FEATURES

Add Trays or Crossmembers

300 LBS 1:1 Ratio Stack

Full 3x3" Tubing Frame
