

Band Resistance Cable Stack Attachment

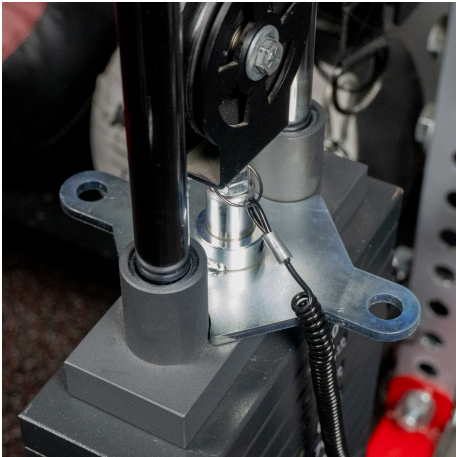

SPECS

Material Tubing	Fits Stray Dog Cable
Height	Stacks
Width	
Depth	
Weight	
Foot Print	
Made In Usa	Yes

The Cable Stack Band Attachment adds dynamic resistance to Stray Dog Cable Columns and Lat Pull Down machines by enabling quick, secure Stroops Band connections. This allows athletes to seamlessly add or remove band resistance, unlocking advanced training methods like Oscillatory Training. The result: improved neuromuscular control, force absorption, and power output—driving sport-specific adaptations that translate directly to on-field performance.

FEATURES

Top Plate

Comes with Pair of 47 LBS Bands

Lower Band Attachment
